ePaw 2025

for the learners of tomorrow

ePaw is Undurba's BYO iPad Program for all students in Years 3, 4, 5 and 6.

APPS AND ONBOARDING

At Undurba, we keep our app list as small as we can, with a focus on using apps to support learning through investigating and creating.

The Education Department uses Microsoft Intune Company Portal to enrol iPads to allow them to:

- Access the school network
- Automatically set up school email
- Access and download all free apps on the school app list without going to the App Store for each individual app (a great timesaver).

MINIMUM DEVICE REQUIREMENTS:

The oldest device that students can use at school is an iPad 7th Generation. The latest iOS is needed to run the apps students need for school. No iPad minis or iPad Airs can be used.

NEED HELP?

If you have questions about these or other ePaw related issues, please do not hesitate to contact us.
epaw@undurbass.eq.edu.au

RECOMMENDED DEVICE REQUIREMENTS

Generation: iPad 8, 9 or 10. (Gen 10 most recommended)

Storage: 62GB (storage will need to be managed carefully on a 32Gb device)

Connectivity: WiFi only (No cellular devices allowed at school. No VPNs.) This is for safety purposes within the departmental WiFi network.

Students need a case that will protect the device. Keyboards and a pencil/stylus are optional.
